The Cambridge History of Philosophy in the Nineteenth Century is a comprehensive study of intellectual projects and movements for whose invention the eighteenth century deserves primary credit. It brings together twenty-nine essays by leading scholars aims to give a comprehensive account of European philosophy from 1790 to 1870. The latest volume in the Cambridge Histories of Philosophy series, The Cambridge History of Philosophy in the Nineteenth Century, is edited by Allen W. Wood and Songsuk Susan Hahn. It covers the period from Kant to Frege, a period that is widely seen as a turning point in the history of philosophy. The book is intended for those interested in the history of philosophy, as well as for those who wish to gain a broader understanding of the intellectual and cultural developments of the nineteenth century.
